

At NAVARRA DE TÉCNICAS DE SOLDADURA Y FIJACIÓN (TSF) we are committed to carrying out our manufacturing, procurement, and supply activities for fasteners and fixing elements while respecting and protecting the environment, promoting the conservation of natural resources, and reducing the environmental footprint of our production activities and products throughout their lifecycle. To remain consistent with this statement, Management assumes the following commitments:

- **Comply with applicable environmental legislation**, ensuring that all activities are conducted in accordance with said regulations.
- **Promote the reduction of energy** consumption and greenhouse gas emissions, favoring the use of renewable energy.
- **Prevent pollution**, applying a highly preventive approach to management, particularly regarding hazardous and non-hazardous waste generation, through the information, training, and awareness of all workers involved, while continuously striving to provide the necessary working conditions to safeguard our environment.
- **Monitor and control noise emissions** to guarantee compliance with established regulatory limits.
- **Promote the reduction of water** consumption while ensuring its quality.
- **Ensure responsible chemical management** by identifying, minimizing, or eliminating the use of restricted substances in manufacturing processes and finished products to ensure regulatory compliance.
- **Continually improve by setting, driving, and periodically** reviewing environmental objectives, using natural resources and energy efficiently, optimizing material usage, and promoting waste reduction, reuse, and recycling techniques.
- **Enhance awareness and communication**, promoting the integration of environmental considerations into the operations of our suppliers, and responding to relevant communications from internal and external interested parties (customers, suppliers, staff, neighbors, associations, and public administration).

This Environmental Policy is available to any interested party upon request.
